(TT2: 2/100/15 - According to tournament rules the stipulation is: ser-h#101)

This entry was originally meant to be sent for tournament as ser-h=>101 (TT2: 2/100/15). But we noticed that Popeye didn't find solution in 101 moves (98.Qg5-f6 99.Qf6-e7 100.Kf7-f6 101.Kf6-g5 Bd8*e7 #). Why not? It's a bug?
